

Dear Parents

Namaskar!

Amidst the state of medical emergency declared the world over due to COVID_19, we must take all necessary measures to protect ourselves and keep our children safe and healthy.

Though there is much uncertainty about when the new academic session will commence, we can convert even this experience into a learning opportunity which will contribute to our children's growth and development.

Delhi Public School in corroboration with Nature Nurture ensures that nothing impedes children's development, and our children continue their educational journey at home too. Research shows that active family engagement enhances children's learning. Family engagement can transform the lockdown period into a window of opportunities to learn and grow together.

So, dear parents, let us spend this time we have been given with our children meaningfully and ensure that every moment spent together is worthwhile. We do understand that, as parents, you may need guidance about the latest pedagogic practices and approaches. **Therefore, our educators in tandem with team of experts are in the process to design an effective homeschooling programme called 'Home School Connect'.**

Click the following link for an introductory video as the first step towards meaningful 'Home School Connect'.

Let's gear up for exciting learning and fun as you actively engage with your children and make the best of this situation. We are sure that together we will deal with the situation in a very constructive manner, and our children will be able to bridge this gap smoothly and confidently.

Are you ready to take on this educational journey with us?
